

# Make an Egg-citing Holiday Craft!

Recycle your egg cartons into fun holiday decorations.

## Materials:

Egg carton  
Scissors  
Glue  
Paint, crayons or markers  
Felt or construction paper  
Sequins, googly eyes, fuzzy balls, buttons etc.

## Instructions:

Step 1. Cut out individual cups from the egg carton.

Step 2. Use paint, crayons or markers to decorate the single egg cartons. Some options include: a snowman, a holiday tree or a penguin.

Step 3. Cut out accessories from felt or construction paper or use craft supplies. Then glue egg cartons together, based on what you are creating.

### Snowman

Use two cartons stacked in the opposite direction to create the snowman body. Then place one carton on top of the body for the head. Cut out and paste small circles as buttons and a triangle for the nose. Make a hat by placing and gluing a single carton to a round circle. Don't forget that frosty needs some fun crafty eyes to go along with that spiffy hat.

### Holiday Tree

Stack single egg cartons to create a tree. Add a little holiday sparkle by gluing sequins to your tree and adding a cut-out paper star.

### Penguin

Cut and paste a half white circle to a single carton. Cut an orange triangle and glue to the white circle for the nose. As a finishing touch, add a pair of cute googly eyes!

Step 4. Display your new creations as a table centerpiece or a festive touch next to holiday cards.
