

5

Tips for a Sustainable Holiday Season

1

Recycle What You Can

Flattened boxes, wrapping paper, paper-only cards (no glitter or foil), paper gift bags (no handles or ribbon) and tissue paper can all be recycled.

2

Dispose of Trees Properly

Check your municipality's guidelines for tree disposal. Generally, fake trees should go in the waste cart. Some plants, like poinsettias, can be composted without a pot.

3

Organize Food Waste

If you have an organics cart, compost leftover food. Place cooking oil in a sealed container and take it to a household hazardous waste facility.

4

Reuse Materials

Save non-recyclables like bubble wrap, ribbons and bows for your next gifting event.

5

Choose Simple

When you're shopping for wrapping supplies, choose non-laminated, glitter-free wrapping paper and gift bags. That ensures the person you gifted can recycle them.
